Docket No. PF26-4-000
Revised Project Description

Dear Ms. Reese:

On February 12, 2026, the Director of the Office of Energy Projects issued a letter in the above referenced docket approving the request of WBI Energy Transmission, Inc. (WBI Energy) to commence the Federal Energy Regulatory Commission's (FERC or Commission) pre-filing review process for its planned Bakken East Pipeline Project (Project). The Project will serve new power generation, industrial facilities, and local distribution company demand in central and eastern North Dakota.

On March 13, 2026, WBI Energy concluded its binding open season. As a result of the binding open season, Project facilities have been modified from those included in WBI Energy's filing of draft Resource Report 1[1]and currently include approximately 353 miles of 42-inch, 36-inch and 30-inch diameter mainline pipeline; approximately 21 miles of 30-inch, 24-inch and 20-inch diameter lateral pipelines; additional compression at three existing WBI Energy compressor stations and the construction of three new compressor stations; and various receipt, delivery, and transfer and interconnection stations. Included with this filing is the following updated information:

- An updated Project Overview map (Figure 1.1.2-1 in draft Resource Report 1) as Exhibit A.
- Revised draft Resource Report 1 Table 1.1.2-1: Proposed Pipeline Facilities, Table 1.1.2-2: Proposed New and Modified Compressor Stations, and Table 1.1.2.3: Proposed Receipt, Delivery, and Transfer Stations as Exhibit B.

[1] On March 13, 2026, WBI Energy submitted draft Resource Reports 1 and 10 (Accession Nos. 202603135242 and 202603135243).

- An updated Stakeholder Mailing List[2] as Exhibit C.
- An updated Landowner Mailing List[3] (Appendix 1H to Resource Report 1) reflecting landowners impacted by the Project facilities included herein. Consistent with the Commission's precedent and regulations with respect to sensitive information, WBI Energy requests privileged and confidential treatment of this information, which is labeled: "CUI//PRIV – DO NOT RELEASE."
